Overview

Advanced Home Air Purification

This high-performance air purifier is designed to create a healthier indoor environment by effectively removing dust, allergens, and toxic substances like formaldehyde and benzene. Featuring a multi-stage filtration system and intelligent sensors, it ensures continuous air freshness while operating quietly. With its sleek cylindrical design and user-friendly features like auto-mode and filter reminders, it is an ideal solution for modern living and working spaces.

Performance

Clean Air Delivery Rate (PCADR)

240 m³/h
PCADR

Applicable Room Size	16-28m ²
Maximum Noise Level	61 dB(A)

Filtration System

Target Pollutants

- Dust and airborne particles
- Formaldehyde and Benzene
- Pesticides and toxic hydrocarbons
- Tobacco and animal odors
- Cooking lampblack

Filter Configuration	Pre-filter, H13 HEPA, Activated Carbon
----------------------	--

Technical Specifications

Product Item NO.	TL2718
PCADR	240m ³ /h
Power consumption	26W
Filter configuration	Pre filter+H13 HEPA + Activated Carbon
Noise level/max	≤61dB(A)
Motor	DC motor
Applicable room size	16-28m ²
Manual control of fan speed setting	Yes (3 fan speed)
Sensor	IR sensor
Functions	Auto mode,sleep mode, Reminder for filter replacement
Air quality indicator	Yes, color ring
Adaptor	24V1.5A
Product dimension	235*235*423mm
MOQ	1000pcs
USD(FOB NINGBO)	

Detailed technical parameters and filtration components of the TL2718 air purifier.

Unit Specifications

Feature	Specification
Motor Type	DC Motor
Power Consumption	26W
Adaptor	24V 1.5A
Dimensions	235 x 235 x 423 mm

Smart Features

Operational Modes

Auto Mode • Sleep Mode • 3-Speed Manual

Sensors & Indicators

- IR Sensor for air quality detection
- Color ring air quality indicator
- Filter replacement reminder
