

Home Air Purifier with Multi-Layer Filtration

This high-efficiency air purifier is designed for home use and features multi-layer filtration. It is equipped with a digital display and adjustable fan speeds for customized air purification.

Product Overview

High-Efficiency Home Air Purification

The SJR-904 air purifier is designed to provide comprehensive air quality management for residential and small office environments. Featuring a robust multi-layer filtration system, it effectively captures airborne particulates including dust, pollen, smoke, and odors. This unit combines powerful performance with an intuitive design to ensure a healthier indoor atmosphere.
