

# Home Dehumidifier for Moisture Removal

This dehumidifier is designed for home use, effectively removing excess moisture from the air. It helps prevent mold and mildew growth while improving overall air quality.

## Product Overview

### High-Efficiency Home Dehumidifier

This high-performance dehumidifier is designed to effectively remove excess moisture from your home environment, helping to prevent mold and mildew growth while improving overall air quality. It features advanced air purification technologies including UV light, an ionizer, and a carbon filter. With user-friendly features like one-button laundry drying, sleep mode, and a 3-color humidity display, it offers both convenience and comfort for residential use.

## Key Features

### Core Functionality

- 24-hour on/off timer
- One-button laundry drying function
- One-button sleep mode
- Auto swing (optional)
- Room humidity display

## Air Quality & Technology

### Purification Technologies

UV Light, Ionizer, Carbon Filter

## Technical Specifications

### Refrigerant

R290

## Design & Usability

### Design Features

3-color LED light logic • Castors for mobility
