

Horizontal Flow Wrapper

This horizontal flow wrapper is designed for high-speed packaging of various products. It features adjustable forming box, automatic film feeding, and precise sealing mechanisms.

Overview

High-Performance Horizontal Flow Wrapper

This horizontal flow wrapper is engineered for high-speed, reliable packaging across diverse sectors including food, pharmaceuticals, and industrial manufacturing. Built with durable stainless steel for optimal hygiene, the system features an integrated conveyor belt for continuous product flow. Operators can easily manage settings via a programmable logic controller (PLC), ensuring precise sealing and consistent packaging quality with minimal downtime.

Technical Features

Key Features

- Adjustable forming box
- Automatic film feeding system
- Precise sealing mechanisms
- Continuous conveyor belt system
- Programmable Logic Controller (PLC) interface

Construction Material	Stainless Steel
------------------------------	-----------------

Applications

Suitable Industries	Food, Pharmaceutical, Industrial
----------------------------	----------------------------------
