

Horizontal Metal Cutting Band Saw

This horizontal band saw machine is designed for cutting metal materials. It features a robust frame, precision cutting capabilities, and a coolant system for efficient operation.

Overview

Industrial Precision Cutting

This horizontal band saw is engineered for high-performance metal cutting in industrial environments. It features a robust, rigid frame design that ensures stability and precision during operation. Equipped with an integrated coolant system and advanced clamping mechanisms, this machine delivers repeatable, clean cuts for demanding manufacturing applications.

Technical Specifications

Clamping System

Double Clamping • Industrial Grade

Model	GB4028X40
Machine Type	Horizontal Metal Cutting Band Saw

Features

Key Features

- Robust frame construction
- Precision cutting capability
- Integrated coolant system
- Adjustable control panel
- Secure workpiece clamping mechanism
