

# Horizontal Metal Cutting Bandsaw

Adjustable blade guides attached to the saw head, with 8 sealed ball bearings, help align the blade and increase its lifetime of use. The head and bow are made from heavy cast iron, precisely machined to exacting tolerances, maintaining proper alignment during the cutting process.

## ADDITIONAL IMAGES

## Overview

### Precision Metal Cutting Performance

This horizontal metal cutting bandsaw is engineered for versatility and durability in professional workshop environments. Featuring a heavy-duty cast iron saw head and bow, it minimizes vibrations to ensure clean, accurate cuts across various metal types. The dual-mode operation allows for both horizontal and vertical cutting, while the integrated coolant system and chip removal brush maintain smooth operation and extend blade longevity.

## Construction & Design

Build Quality	Cast Iron Head, Electro-welded Steel Frame, Vibration-Dampening Design
Portability	Yes

## Cutting Capabilities

### Operation Modes

- Horizontal
- Vertical

Blade Guidance System	Adjustable guides with 8 sealed ball bearings
-----------------------	---

## Maintenance & Features

Cooling System	Yes
Chip Management	Includes chip removal brush
