

Horizontal Metal Cutting Bandsaw

This horizontal bandsaw is designed for precise metal cutting. Its robust construction ensures stability and accurate cuts on various metal materials.

Product Overview

Professional Metal Cutting Performance

The BS-712R is a robust horizontal bandsaw designed for precision metal cutting in professional workshop environments. It features a heavy-duty construction for maximum stability and durability, ensuring accurate cuts across various metal materials. Equipped with a powerful motor and variable speed control, this saw provides optimal performance and clean results for diverse industrial applications.

Performance & Capability

Key Performance Metrics

712 R

Model Series

Speed Control

Variable speed control for optimal cutting performance

Construction & Design

Build Construction

Heavy-Duty • Stable • Durable

Mobility

Mobile base for easy maneuverability within the workshop

Technical Features

Blade Support System

- Adjustable blade guides to minimize deflection
- Integrated coolant system to dissipate heat
- Extended blade life through thermal management

Workpiece Handling

- Integrated vise for securing workpieces
- Adjustable stop for repetitive cutting tasks

Precision Features

Precision Cutting, Clean Cuts, Accurate Alignment
