

Horizontal Steam Cleaning Machine

This horizontal steam cleaning machine delivers efficient cleaning through high-pressure steam. Its compact design ensures easy handling and storage.

Product Overview

Efficient Steam Cleaning Solution

This horizontal steam cleaning machine is designed for high-performance sanitation across various hard surfaces, including floors and tiles. Featuring a 1400W heating element and a 1L capacity, it delivers consistent steam pressure between 3.2 and 4.0 bar for effective grime removal. Its compact, ergonomic design ensures easy maneuverability and storage, making it a practical choice for professional cleaning environments.

Technical Specifications

Steam Pressure

3.2 bar

Min Pressure

4 bar

Max Pressure

| | |
|-----------------------|--------------------------------|
| Power Output | 1400 W |
| Voltage Compatibility | 220V-240V/50Hz, 110V-120V/60Hz |
| Tank Capacity | 1 L |
| Power Cord Length | 5 m |

Dimensions & Weight

| | |
|--------------------|--------------------------|
| Machine Dimensions | 331.5 x 213.5 x 238.5 mm |
| Net Weight | 5.6 kgs |

Logistics & Packaging

Packaging Details

| Item | Dimensions (mm) |
|------------|-----------------|
| Color Box | 500 x 235 x 285 |
| Carton Box | 515 x 250 x 305 |

Container Loading Capacity

- 20'FT: 720 PCS
- 40'FT: 1200 PCS
- 40'HQ: 1400 PCS
