

Horizontal Water-Cooled Diesel Engine ZR170

This is a horizontal type, water-cooled diesel engine with a four-stroke, single-cylinder design. It features a 22:1 compression ratio and a rated speed of 2600 rpm.

Product Overview

ZR170 Diesel Engine

The ZR170 is a reliable, horizontal 4-stroke diesel engine designed for consistent performance in demanding agricultural applications. Featuring a water-cooled system and a swirl combustion chamber, this single-cylinder engine offers stable operation and efficient power delivery. Its compact horizontal configuration ensures straightforward installation across various machinery types.

Performance Metrics

1-Hour Rated Power

2.99 kW

1-Hour Rated Power

12-Hour Rated Power

2.72 kW

12-Hour Rated Power

Rated Speed	2600 r/min
Specific Fuel Consumption	299.2 g/kw-h

Technical Specifications

Engine Type	Horizontal 4-stroke
Number of Cylinders	1
Bore x Stroke	70x60 mm
Total Displacement	0.231 L
Compression Ratio	22

Operational Features

Cooling Method

Water cooled

Starting Method

- Handle
- Electrical

Combustion Chamber Type	Swirl
