

# Hose Connector with Claw Coupling

This universal claw coupling hose connector is designed for connecting hoses in construction, mining, and industrial applications. It features a robust metal construction with a claw-type locking mechanism for secure and quick connections.

## Product Overview

### Versatile Industrial Claw Coupling

This universal claw coupling hose connector is engineered for heavy-duty applications in construction, mining, and industrial environments. It features a robust metal construction with a reliable claw-type locking mechanism designed for quick, secure connections. The barbed tail design ensures an optimal grip on rubber and PVC hoses, providing a tight, leak-proof seal that maintains consistent fluid flow.

## Technical Specifications

Construction Material	Robust Metal
Hose Compatibility	Rubber Hose, PVC Hose
Mechanism Type	Claw-type locking

## Usage Applications

### Primary Applications

- Construction
- Mining
- General Industrial Fluid Handling
