

Hot and Cold Water Dispenser

This desktop appliance dispenses both hot and cold water. It features dual spouts for dispensing different water temperatures simultaneously.

Overview

Versatile Water Dispensing Solution

The 5T15 Series water dispenser is a compact and efficient appliance designed for both home and office environments. It offers flexible temperature options, including hot, cold, and room-temperature water depending on the specific model selected. With its durable construction, intuitive status indicator lights, and removable drip tray, this unit provides a reliable and easy-to-maintain solution for daily hydration needs.
