Overview

Innovative All-in-One Solution

This advanced water dispenser combines hot and cold water functionality with an integrated ice maker and reverse osmosis filtration. Designed for ease of use, it features a free-installation setup that does not require complex plumbing. Its compact design and efficient compressor make it an ideal choice for both home and professional office environments seeking purified water and ice on demand.

Technical Specifications

Power Requirements

2100 W

Total Rated Power

2000 W

Heating Power

220 V

Rated Voltage

Performance Capacity

Metric	Value
Cold Water Capacity	2.5L/H (d10°C)
Ice Container Capacity	1.2L
Rated Water Capacity	4000L
Water Flow Rate	520ml/min

Dimensions & Construction

- Dimensions: 457 x 305 x 430mm
- Shell Material: ABS + Metal
- Applicable Water Source: Municipal water
- Operating Pressure: 0.5 - 0.8 MPa

Features

Shows the multi-stage filtration process and convenient bullet-ice production cycle.

Key Features

Reverse Osmosis Filtration, Hot & Cold Water, Bullet-shaped Ice Production, Free Installation, Removable Drip Tray

Compliance

Standards & Approvals

ISO 9001 • CE • CB • CCC • CQC • ERP • NSF
