

Hot Dip Galvanized Drop Forged Anchor Shackle with Safety Pin

This hot-dip galvanized, drop-forged anchor shackle conforms to federal specification RR-C-271D type. It is designed for heavy-duty lifting and rigging applications with a safety pin for secure fastening.

Product Overview

Heavy-Duty Rigging Solution

This hot-dip galvanized, drop-forged anchor shackle is engineered for demanding lifting and rigging applications. Conforming to federal specification RR-C-271D, it offers a robust construction with a secure safety pin mechanism. The hot-dip galvanization ensures superior corrosion resistance, making it an ideal choice for construction, industrial, and maritime environments where reliability is paramount.

Technical Specifications

Working Load Limit

8.5 T
WLL

Manufacturing Method

Drop Forged

Surface Finish

Hot-Dip Galvanized

Standards & Compliance

Federal Specification

RR-C-271D

Features

Fastening Mechanism

Safety Pin

Typical Applications

Construction, Industrial, Maritime, Lifting, Rigging
