

Hot Dip Galvanized Drop Forged Screw Collar Pin Chain Shackles

These hot dip galvanized drop forged chain shackles are designed with a screw collar pin. They conform to federal specification RR-C-271D.

Product Overview

Heavy-Duty Rigging Solution

These hot-dip galvanized drop-forged screw collar pin chain shackles are engineered for demanding lifting and rigging applications. Designed to comply with federal specification RR-C-271D, they offer exceptional durability and structural integrity. The screw collar pin mechanism ensures both ease of use and a secure connection, while the hot-dip galvanized finish provides superior resistance to corrosion in harsh environments.

Technical Specifications

Manufacturing Process	Drop-forged
Surface Finish	Hot-dip galvanized
Compliance	RR-C-271D

Performance Metrics

Rated Capacity

8.5 T

Working Load Limit

Design Features

Best For

- Heavy-duty lifting
- Rigging applications
- Harsh environment use

Fastening Type	Screw collar pin
