

Hot Water Bottles, Bulb Syringes, and Ring Cushions Set

This set features hot water bottles, bulb syringes, and ring cushions. The hot water bottles provide therapeutic heat, while the syringes and cushions offer liquid transfer and pressure relief, respectively.

General Overview

Versatile Medical Care Set

This comprehensive set includes essential medical and personal care tools, featuring hot water bottles for therapeutic heat application, bulb syringes for precise liquid transfer or irrigation, and ring cushions designed for effective pressure relief. Crafted from durable, flexible materials, these items are suitable for both professional medical environments and home personal care. This collection provides a multi-functional solution for pain management, patient comfort, and fluid handling.
