

Hotel Room Electric Kettle

This electric kettle is specifically designed for hotel room use. It features automatic shut-off and boil-dry protection for safe and efficient operation.

Overview

Professional Hotel Grade Kettle

This stainless steel electric kettle is specifically engineered for the hospitality environment, combining durability with essential safety features. Its 0.8L and 1.0L capacity options provide flexibility for guest room needs, while the 360-degree cordless design ensures ease of use for all guests. With built-in safety mechanisms like automatic shut-off and boil-dry protection, it offers peace of mind for hotel operators.
