

Household Dishwasher and Disinfector

This appliance functions as both a dishwasher and a disinfecting unit. Its multi-drawer system allows for separate or simultaneous processing of different items, ensuring hygiene and efficiency in kitchen operations.

Product Overview

Dual-Function Hygiene Solution

This advanced appliance integrates high-performance dishwashing with professional-grade disinfection capabilities, specifically designed for modern household environments. Featuring a versatile multi-drawer system, it allows for efficient and simultaneous processing of various items, ensuring optimal hygiene standards. The unit's streamlined design and intuitive control interface make it a sophisticated addition to any kitchen configuration.

Technical Specifications

Appliance Type

Dishwasher • Disinfector

Model Number

VTD8015-15
