

Household Electric Iron

This electric iron is designed for pressing and smoothing fabrics. It features a temperature control dial, a non-stick soleplate, and a handle for easy grip and maneuverability.

Product Overview

Efficient Fabric Care

This household electric iron is designed for effective pressing and smoothing of various fabrics. It features an ergonomic handle for easy maneuverability and a durable non-stick soleplate to ensure smooth gliding across garments. The integrated temperature control dial allows users to adjust heat settings to suit different material types, making it a reliable tool for daily laundry needs.
