

Household Electric Iron

This electric iron is designed for removing wrinkles from fabric through heat and pressure. It incorporates a temperature control dial, a water reservoir for steam generation, and a non-stick soleplate.

Overview

Professional Household Electric Iron

This versatile household electric iron is engineered for efficient wrinkle removal across a variety of fabrics. It features multiple steam modes, including dry, spray, and vertical steam, supported by a generous 305ml water tank. Designed with user safety and convenience in mind, the unit incorporates advanced functions such as self-cleaning, anti-calc, and automatic shut-off capabilities.

Technical Specifications

Power Performance

2200 W

Max Power

305 ml

Water Tank Capacity

Voltage Compatibility

- 220-240V (1600-2200W)
- 110-120V (1000-1200W)

Design & Build

Soleplate Material	Non-stick, Stainless steel, Ceramic coating, Enamel
Unit Dimensions	29 x 12 x 15 cm
Soleplate Dimensions	235 x 125 mm

Features

Steam Capabilities

Dry Ironing • Spray • Steam • Vertical Steam • Burst of Steam

Safety & Maintenance

Self-Cleaning • Anti-Calc • Anti-Drip • Auto Shut-Off
