

Household Electric Iron with Steam Control

This electric iron is designed for ironing clothes and fabrics. It utilizes heat and steam to remove wrinkles.

Product Overview

Professional Steam Ironing System

This high-performance household electric iron features a pressurized inox boiler system designed for efficient wrinkle removal. It offers versatile functionality, including dry ironing, burst of steam, and vertical steam capabilities. The system is built with a polished aluminum soleplate and is available with a 1.2L or 1.7L boiler capacity, making it suitable for various household needs.
