

Household Electric Iron with Temperature Control

This electric iron features variable temperature control for different fabric types. A pilot light indicates when the iron is ready for use.

Overview

Versatile Household Ironing Solution

This household electric iron is designed for efficient dry ironing across a variety of fabric types. Featuring a user-friendly temperature control dial with intuitive red and blue markings, it ensures precise heat management for delicate to heavy-duty garments. The inclusion of a non-stick soleplate and a swivel power cord enhances maneuverability and ease of use, making it a reliable tool for daily garment care.

Design & Build
