

# Household Electric Steam Iron

This is an electric steam iron designed for household use. It features a non-stick soleplate and water reservoir for steam generation to efficiently remove wrinkles from clothing.

## Overview

### Efficient Household Steam Ironing

This household electric steam iron is designed for effective wrinkle removal across a variety of fabrics. Featuring a durable non-stick soleplate and a translucent water reservoir, it offers a user-friendly experience for everyday garment care. The included base ensures safe storage and stability when the iron is not in use.

## Technical Specifications

### Power Rating

**1100 W**

Power Consumption

### Electrical Requirements

Parameter	Value
