

Household LED Bulb with Aluminum Heat Sink

This high-efficiency LED bulb is designed for household lighting. It features a durable aluminum heat sink for thermal management, ensuring long lifespan and consistent performance.

Product Overview

High-Efficiency Household Lighting

This LED bulb is engineered for superior household lighting performance, combining bright, uniform illumination with significant energy efficiency. It features a robust aluminum heat sink designed for optimal thermal management, which effectively extends the product's lifespan and ensures consistent light output. This solution is both cost-effective and environmentally friendly, making it an ideal choice for various indoor lighting applications.

Technical Specifications

Key Benefits

- Low energy consumption
- Uniform illumination
- Extended lifespan
- Environmentally friendly

Thermal Management	Aluminum Heat Sink
Application	Household, Indoor
