

Household LED Light Bulb with Aluminum Heat Sink

Energy-efficient LED bulb designed for household lighting. It features an aluminum heat sink for optimal thermal management and extended lifespan, providing bright, uniform illumination.

Overview

Energy-Efficient Household Lighting

This household LED light bulb is engineered for high performance and longevity. Featuring an integrated aluminum heat sink, it ensures optimal thermal management to extend the bulb's lifespan significantly. It provides bright, uniform illumination while helping to reduce energy consumption and lower electricity bills.

Design & Build

Thermal Management	Aluminum heat sink
Base Type	Standard screw base

Features

Key Benefits	Energy Efficient, Extended Lifespan, Uniform Illumination, Easy Installation
