

Household Snow Flake Ice Maker

This household appliance produces soft, snow-like ice flakes quickly. It features one-button operation and an automatic cleaning function for ease of use.

Product Overview

Professional Snow Flake Ice Maker

This high-efficiency ice maker delivers rapid, soft, and fluffy snow-like ice in just 30 seconds. Designed for both residential and light commercial use, it features 8-speed adjustments to create various textures from slush to waterfall-style ice. With its food-grade stainless steel construction and automated cleaning functions, this machine provides a hygienic, durable, and user-friendly solution for crafting professional-grade desserts and cold drinks.
