

Household Steam Iron for Garment Care

This household steam iron is designed for both dry and steam ironing. It features a visible water reservoir, temperature control dial, and adjustable steam settings.

Product Overview

Professional Garment Care

The SIK-2008 household steam iron provides versatile fabric care through its multi-mode ironing capabilities. Engineered for efficiency, it supports dry, spray, steam, and burst-of-steam functions to tackle various wrinkle types. Its ergonomic design and visible water level indicator ensure a user-friendly experience for everyday garment maintenance.
