

Household Steam Iron for Garments

This is a household steam iron designed for ironing clothes and fabrics. It applies heat and steam to efficiently remove wrinkles.

Product Overview

Professional Performance in a Home Appliance

The SIC-5878 household steam iron is engineered to provide efficient wrinkle removal for a variety of fabrics. With versatile operating modes including steam, dry, and vertical steam, this unit handles everything from delicate garments to heavy-duty linens with ease. The integrated self-cleaning function and 360-degree swivel cord ensure long-lasting durability and convenient maneuverability for all users.
