

# Household Ventilation Fan 120mm

This ventilation fan is designed for household use. It removes stale air and moisture to promote air circulation and prevent mold and mildew growth.

## Product Overview

### High-Efficiency Household Ventilation

This 120mm ventilating fan is engineered to provide reliable air extraction for bathrooms, kitchens, and other confined living spaces. Designed to effectively remove stale air, moisture, and odors, it helps maintain a healthy indoor environment while preventing the growth of mold and mildew. Its compact design and standard sizing ensure ease of integration into residential ventilation systems.

## Technical Performance

### Air Delivery

**120 m<sup>3</sup>/h**

Air Flow

**1130 r/min**

Rotation Speed

### Power Consumption

31 W

### Noise Level

45 dB

## Physical Specifications

### Fan Size

120mm / 4.8in

### Model Identifier

BPT12-14-2E

### Measurement

83 x 28 x 46 cm
