

Household Wall-Mounted Water Purification Machine

This water purification machine employs multiple filtration stages, including PP cotton, granular activated carbon (GAC), and an ultrafiltration (UF) membrane filter. Designed for household use, it removes impurities and contaminants from water, providing clean and safe drinking water.

Product Overview

Clean Water Solution

This household water purification system is designed to provide high-quality, safe drinking water through advanced multi-stage filtration. The wall-mounted design saves valuable kitchen counter space while ensuring easy access to purified water. With its integrated digital monitoring interface, users can easily track performance to ensure continuous water quality.

Technical Specifications

Filtration Technology

- PP Cotton Filter
- Granular Activated Carbon (GAC)
- Ultrafiltration (UF) Membrane

Installation

Wall-Mounted, Household

Monitoring

Yes
