

Household Water Filtration System

This water purifier is designed for household use, providing clean and filtered water. It utilizes an advanced filtration system to remove impurities and contaminants from tap water, ensuring safe and healthy drinking water.

Product Overview

Clean Water Solution

This household water filtration system is designed to provide clean, safe, and great-tasting drinking water directly from your tap. Utilizing a multi-stage filtration process, it effectively removes impurities and contaminants, ensuring high water quality for your daily needs. Its compact and durable construction makes it an ideal addition to any kitchen environment, offering both convenience and reliability.

Technical Specifications

Outflow Flux

250 ml/min
Average Outflow

Applicable Water Source	Civic tap water
Gross Volume	15 L
Dimensions (L x W x H)	300 x 300 x 470 mm

Filtration System

Filtration Stages

- Intenerating filters
- Active carbon cartridge
