Overview

Modular Plastic Conveyor Belt for Spiral Systems

This modular plastic conveyor belt is engineered specifically for spiral conveyor applications. It features a robust design that supports smooth product handling while offering significant operational advantages, including maintenance-free operation and a longer service life compared to traditional belts. With high load-bearing capabilities and food-grade material options, it is an ideal solution for demanding environments in both food processing and industrial manufacturing.

Technical Specifications

Pitch	50.8 mm
Thickness	14.5 mm
Minimum Width	253 mm
Open Area	63 %
Rod Diameter	5.8 mm
Working Temperature Range	-40°C to 260°C
Available Materials	PP, POM, PE, PA
Available Colors	White, Blue, Gray, Nature, Dark-brown

Features & Compliance

Certifications

FDA • EU

Design Features

- Curve capable
- Floating in water
- Food defrosting compatible
- Maintenance-free
- Easy to clean

Maximum Load Capacity

1.2 tons/sqm

Max Load

Applications

Industry Compatibility

Sector	Applications
Food Industry	Meat, Poultry, Sea Food, Bakery, Snacks, Fruits & Vegetables
Non-Food Industry	Automotive, Tire, Packaging, Printing, Postal, Cardboard, Can, PET, Textile
