Overview

Modular Plastic Conveyor Belt

The HS-3600B is a high-performance modular plastic conveyor belt engineered specifically for demanding food processing environments, including seafood, meat, and poultry applications. Its robust design features a 50mm pitch and 16mm thickness, capable of handling loads up to 1.2 tons per square meter. Designed for hygiene and efficiency, the belt offers excellent drainage, is easy to clean, and is constructed from food-approved materials to meet stringent safety standards.

Technical Specifications

Maximum Load Capacity

1.2 tons/m²
Max Load

Pitch	50 mm
Thickness	16 mm
Rod Diameter	5.8 mm
Minimum Width	200 mm
Open Area	27 %
Working Temperature	-40°C to 260°C

Features & Compliance

Available Colors

White • Blue • Gray • Nature • Dark-brown

Design Features

- Flight included
- No side guard
- Straight running (no curve)
- Easy to clean
- Maintenance-free

Regulatory Approvals

FDA, EU Approved

Available Materials

PP, POM, PE, PA

Components

Sprocket Dimensions

Specification	Detail
Sprocket Size	8T
Bore Type	Square and Round
