

HSS-CO Countersink Drill Bit Set

This high-speed steel cobalt (HSS-CO) countersink drill bit set has a 75° countersink angle and three cutting edges. It features a tin-coated surface treatment for enhanced durability and performance and is ideal for creating countersunk holes in a variety of materials.

Product Overview

High-Performance Countersink Set

This HSS-CO countersink drill bit set is engineered for precision and durability in industrial applications. Featuring a 75° countersink angle and three cutting edges, these bits ensure clean, efficient material removal. The TiN-coated surface treatment significantly enhances wear resistance, making them ideal for creating professional-grade countersunk holes across a variety of materials.

Technical Specifications

Surface Treatment

TiN-Coated

Material

HSS-CO (High-Speed Steel Cobalt)

Countersink Angle

75 °

Cutting Edges

3

Set Composition

6-Piece Set

Dimensions and Sizing

Size Specifications

Flute Diameter (mm)	Shank Diameter (mm)	Total Length (mm)
6.3	5	45
8.3	6	50
10.4	6	50
12.4	8	56
16.5	10	60
20.5	10	63
25	10	67
