Product Overview

Professional HSS Step Drill Bit Set

This HSS step drill bit set is engineered for precision drilling across multiple materials including thin sheet metal, wood, and plastic. Each bit features a multi-stepped design that allows for clean, burr-free hole creation across a wide range of diameters using a single tool. Built from durable high-speed steel, these bits are ideal for demanding applications in automotive, plumbing, and electrical trades.

Technical Specifications

Available Drill Ranges

- 4-12mm
- 4-20mm
- 4-32mm

Material Composition	High-Speed Steel (HSS)
Shank Design	Hex Shank
Size Marking Method	Laser-etched

Applications

Compatible Materials	Sheet Metal, Plastic, Wood
Primary Use Cases	Electrical, Plumbing, Automotive
