

HVAC Brass Angle Valve with 1/2 inch Connection

This brass angle valve is designed for HVAC&R applications. It features a 1/2 inch connection size and is suitable for controlling the flow of fluids or gases in refrigeration and air conditioning systems.

Product Overview

Professional HVAC Angle Valve

This high-quality brass angle valve is designed specifically for HVAC&R applications, providing reliable flow control for refrigeration and air conditioning systems. Constructed from durable Hpb57-3 brass, it offers excellent corrosion resistance and longevity in demanding environments. The 1/2 inch connection size and secure compression fittings ensure a leak-proof installation for professional piping setups.
