Product Overview

Reliable HVAC Fluid Control

This isolation valve with a butterfly handle is engineered specifically for HVAC&R applications, providing a dependable shut-off mechanism for fluid control. Designed for ease of use, the butterfly handle allows for rapid operation, facilitating efficient isolation of piping sections during maintenance. Its robust construction, featuring compression fittings, ensures secure, leak-free connections for long-term performance in various plumbing and heating systems.

Technical Specifications

Available Specifications

Product Code	Size
E00015	15mm x 15mm
E00016	22mm x 22mm

Key Features

- Butterfly handle for quick operation
- Compression fittings for leak-free connections
- Robust construction
- Suitable for maintenance isolation

Primary Application

HVAC, Plumbing, Heating, Fluid Control
