

HVAC Vacuum Pump

This high-performance vacuum pump is designed for HVAC&R applications. It features robust construction for durability and reliable operation.

Product Overview

Professional HVAC&R Vacuum Pump

This high-performance vacuum pump is engineered for demanding HVAC&R applications, providing efficient system evacuation and consistent deep vacuum levels. Built for durability and reliability, it ensures long-term operational success for professional technicians. The unit features quiet operation and integrated thermal protection, making it a dependable tool for various refrigeration systems.

Key Features

Key Features

- Robust heavy-duty construction
- Deep vacuum level capability
- Oil sight glass for level monitoring
- Low-noise operation design
- Thermal overload protection

Certifications & Compatibility

Compatibility

HVAC&R, Multi-Refrigerant
