### ADDITIONAL IMAGES

## Overview

### Professional HVAC&R Drainage Solution

This brass drain cock is engineered for reliable fluid management in heating, ventilation, air conditioning, and refrigeration systems. Featuring a durable brass construction and a practical barbed hose connection, it ensures controlled drainage for maintenance and system flushing. Designed with a square-head operating stem, it provides a secure manual actuation method for industrial and commercial plumbing applications.

## Technical Specifications

### Specification Size

**0.5 inch**

Connection Size

### Material

Brass

### Product Code

Y00561

### Connection Type

Barbed Hose Connection

## Manufacturing & Quality

### Manufacturing Advantages

- Large-scale cutting-edge manufacturing
- Green manufacturing processes
- Guaranteed cost efficiency
- One-stop solution provider

### Expertise

20 Years Experience, HVAC&R Specialized, Heating & Plumbing

## Application

Target Industries

HVAC&R, Heating Systems, Plumbing, Refrigeration
