

Hydraulic Anchor Windlass and Mooring Winch 90KN

This is a hydraulic anchor windlass and mooring winch with a 90KN capacity. It features a hydraulic drive for smooth operation, a warping drum for mooring, and an anchor chain wheel for handling anchors.

Product Overview

Heavy-Duty Marine Winch System

This hydraulic anchor windlass and mooring winch is engineered for reliable performance in demanding marine environments. Designed with a dual-function capability, it supports both anchor handling and mooring operations, ensuring versatility for various vessel types. The robust hydraulic drive system provides precise control over speed and tension, making it an essential component for safe and efficient deck operations.

Performance Metrics

Key Performance Indicators

90 KN

Rated Load

150 KN

Mooring Pull

15 m/min

Mooring Speed

Technical Specifications

Chain Diameter	78/90 mm
Working Load Range	359.5/384.8 KN
Drum Capacity	! 40 * 200mm * m
Hydraulic System Rating	120 bar
