

Hydraulic Anchor Windlass and Mooring Winch for Marine Vessels

This hydraulic anchor windlass and mooring winch delivers reliable anchor handling and mooring capabilities. Its powerful hydraulic drive ensures smooth operation, while high-quality materials provide durability in harsh marine environments.

Overview

Robust Marine Anchoring and Mooring System

This hydraulic anchor windlass and mooring winch is engineered for heavy-duty marine applications, providing reliable performance for anchor handling and mooring. Constructed with high-quality, corrosion-resistant materials, the system ensures durability in harsh maritime environments. It features a powerful hydraulic drive for smooth, precise operation and is designed to meet international standards for safety and efficiency.

Technical Specifications

Working Load

446.9 KN

Min Working Load

475 KN

Max Working Load

Mooring Performance

Metric	Value
Mooring Pull	250 KN
Mooring Speed	15 m/min

Chain Diameter	100 mm
Working Speed	9 m/min
Drum Capacity	! 42 * 200mm * m
Hydraulic Rating	150

Certifications

Authorized Classifications	CCS, LR, GL, RS
