Product Overview

Robust Marine Anchor Handling

This heavy-duty hydraulic anchor windlass is engineered for reliable performance in demanding marine environments. Designed for efficient anchor deployment and mooring operations, it features a powerful hydraulic drive system and durable construction to withstand harsh conditions. Available in multiple configurations to suit various vessel sizes, it ensures precision and safety for critical maritime tasks.

Key Features

Hydraulic Drive, Heavy-Duty Construction, Anchor Handling, Mooring Operations, Corrosion Resistant

Technical Specifications

Performance Data by Model

Model	Chain Dia (mm)	Working Load (KN)	Supporting Load (KN)	Motor Power (KW)	Weight (T)
CM-24	24	25-27	149-214	8.5/3.5	3.3
CM-26	26	29-32	175-250	8.5/3.5	3.3
CM-28	28	33-37	202-289	11/11/7.5	3.8
CM-30	30	38-42	231-331	11/11/7.5	3.8
CM-32	32	44-49	262-375	16/16/11	4.6
CM-34	34	49-55	295-422	16/16/11	4.6
CM-36	36	55-62	329-473	16/16/11	4.6
CM-38	38	61-69	365-522	22/22/16	5.2
CM-40	40	68-76	403-576	22/22/16	5.2
CM-42	42	75-84	442-630	22/22/16	5.2

Standard Operating Speeds

9 m/min

Working Speed

8.5 m/min

Warping Speed
