

Hydraulic Bottle Jack for Lifting

This hydraulic bottle jack is designed for lifting heavy loads. It is suitable for use in a variety of applications, including construction, automotive repair, and industrial maintenance.

Overview

Professional Hydraulic Lifting Solution

This hydraulic bottle jack is engineered for demanding lifting applications in agricultural and construction environments. Built with advanced technology and high-strength seals, it offers stable, reliable performance for heavy-duty tasks. It is designed to integrate seamlessly with super high-pressure oil pumps to hoist large-scale fittings and assist in complex installation and disassembly projects.

Technical Specifications

Drive Type	Hydraulic
Lifting Category	Lifting Block
Running Mode	Haulage
Structure	Hook Crane
Installation Compatibility	All-Terrain Crane
Work Level	Middle-Level

Capabilities

Key Performance Features

- Advanced manufacturing technology
- High-strength sealing system
- Long-lasting durability
- Stable and reliable lifting quality
- Supports high-pressure oil pump integration

Available Tonnage Capacities	8 TON, 10 TON, 12 TON
