## Product Overview

### JIS Compliant Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is engineered to meet rigorous JIS standards, ensuring reliable performance and safety for demanding lifting applications. Constructed with robust steel and featuring a precision-machined ram and cylinder, it provides a stable and secure lifting platform. Its compact design allows for easy storage and portability, making it an ideal solution for automotive, construction, and industrial environments.

## Technical Specifications

### Load Capacity

**5 Ton**

Rated Capacity

### Safety Features

- Safety overload valve
- Wide base for stability
- Precision-machined ram and cylinder

### Compliance Standards

JIS Compliant

## Applications

### Suitable Environments

Automotive • Construction • Industrial • Professional Use • DIY
