

Hydraulic Clutch Release Bearing

This hydraulic release bearing facilitates smooth and efficient clutch engagement and disengagement. It features a robust construction for extended service life and compatibility with various hydraulic systems.

Product Overview

Hydraulic Clutch Release Bearing

This hydraulic clutch release bearing is engineered for heavy-duty applications, ensuring smooth and efficient clutch engagement and disengagement. Constructed from durable chrome steel, it is designed to withstand the rigorous demands of commercial vehicle systems, including trucks and buses. Its robust build quality promotes an extended service life and reliable performance in various hydraulic configurations.

Technical Specifications

Model Number	6482000087
Material	Chrome steel
Precision Rating	P4
Seals Type	ZZ, RS

Dimensions

Key Dimensions

10 mm

Inside Diameter

40 mm

Outside Diameter

45 mm
