

Hydraulic Clutch Slave Cylinder

This is a slave cylinder used in a hydraulic clutch system. It actuates the clutch release fork when the clutch pedal is depressed.

Product Overview

Hydraulic Clutch Slave Cylinder

This hydraulic clutch slave cylinder is engineered for precise actuation of the clutch release fork, ensuring smooth gear shifting performance. Designed specifically for vehicle compatibility with the 720 pickup model, this robust component features integrated mounting points for streamlined installation. The cylinder houses a high-quality internal piston system that responds reliably to hydraulic pressure to disengage the clutch.

Technical Specifications

Part Number	SI-4166
OEM Reference	48530-09W10

Compatibility

Car Name	Datsun Pick Up
Model	720
Year Range	1983-1985

Installation

Position
LHD (Left Hand Drive)
