Overview

High-Performance Hydraulic Foot Pump

This hydraulic foot pump is designed to provide reliable, portable hydraulic power for a variety of industrial tools and crimping heads. Featuring a hands-free, foot-operated lever design, it allows operators to maintain control while working, significantly improving efficiency on-site. Built for durability, these units are available in two models to suit different weight and portability requirements, ensuring a versatile solution for maintenance and repair tasks.

Technical Specifications

Maximum Pressure

700 Bar
Max Pressure

Model Weights

Model	Weight
BF-70B	12.7 kg
BF-70D	7.9 kg

Package Contents

Included in Package

- Hydraulic Foot Pump (BF-70B or BF-70D)
- Instruction Manual
- Metal Carry Case (for BF-70B)
- Plastic Carry Case (for BF-70D)

Applications

Compatible Equipment

Crimping Heads, Hydraulic Tools, Industrial Maintenance Equipment
