

Hydraulic Hose for Agricultural Machinery

This high-pressure hydraulic hose is designed for agricultural machinery applications. It is constructed with multiple layers of reinforcement for durability and resistance to abrasion, oil, and weather.

Overview

High-Performance Hydraulic Hose

Engineered for demanding agricultural machinery environments, this high-pressure hydraulic hose offers superior durability and flexibility. Constructed with multiple layers of high-tensile reinforcement, it provides exceptional resistance to abrasion, ozone, and weathering. It is fully compatible with a wide range of hydraulic fluids, including mineral oils, synthetic esters, and water-based emulsions, ensuring reliable performance in tractors and harvesters.

Technical Specifications

Compatible Fluids

- Hydraulic oil
- Fuel oil
- Lubricants
- Emulsions
- Glycol
- Water
- Mineral oil
- Synthetic esters
- Biodegradable oils

Available Hose Types

R1, R2, 1SN, 2SN, 4SP, 4SH, R9, R10, R12, R13, R15

Performance Metrics

Operating Temperature

-40 C

Min Temp

120 C

Max Temp

Cold Resistant Variant

Yes

Cold Resistant Temp

-55 C
