

Hydraulic Metal Sheet Shearing Machine

This hydraulic shearing machine is designed for cutting metal sheets with precision. Features include a robust frame, hydraulic drive system, and adjustable blade clearance.

Overview

Precision Hydraulic Shearing Solution

This hydraulic shearing machine is engineered for high-precision cutting of metal sheets, offering robust performance for industrial metalworking applications. It features a reliable hydraulic drive system and adjustable blade clearance to ensure clean, accurate cuts across various materials. Designed with safety and efficiency in mind, the unit includes integrated light curtains and an intuitive control panel for precise parameter management.

Technical Specifications

Cutting Capacity

12 mm

Max Thickness

4000 mm

Cutting Length

Model

QC12K-12 - 4000

Features

Control Parameters

- Adjustable cutting length
- Adjustable cutting angle
- Adjustable blade clearance

Safety Systems

Light Curtains, Emergency Stop

Construction

Drive System

Hydraulic

Frame Construction

Robust heavy-duty frame
