

# Hydraulic Mooring Winch

This electric mooring winch has a rated pull of 20kN and a speed of 12 m/min. It is designed with a drum capacity of 15\*100m.

## ADDITIONAL IMAGES

## Overview

### Professional Hydraulic Mooring Winch

This hydraulic mooring winch is engineered for demanding marine environments, offering robust performance for anchoring and mooring operations. Designed with a high-capacity gear system and hydraulic drive, it ensures precise control and reliability on ships, docks, and offshore platforms. The equipment is built to meet international standards, ensuring safety and durability under significant load conditions.

## Certifications

Authorized Certifications

CCS, LR, GL, RS
