

Hydraulic Power Steering Rack for Toyota Hilux

This power steering rack is designed for Toyota Hilux vehicles. It features a hydraulic power assist system for reduced steering effort.

Product Overview

Hydraulic Power Steering Rack

This hydraulic power steering rack is engineered specifically for Toyota Hilux vehicles produced between 2005 and 2015. It utilizes a reliable hydraulic power assist system to significantly reduce steering effort, enhancing driver comfort and control. Designed as a direct replacement for original equipment, this assembly ensures precise steering response and long-term durability with protective boots to prevent contamination.
